My deepest condolences to Tina (US and Italy ) and the rest of Uncle Johnny's family. Uncle Johnny was such a wonderful man that we loved so very much. He was another grandfather to my kids (now grown). While we'll miss him dearly, we are so privileged to have had him in our lives. I'm happiest that he's now with sweet Granny (Nell) and she won't have to yell at him anymore about his broken English 💎💎 because they'll speak the same love language and hear perfectly 💎💎. Although I wasn't a fan of Johnny's distain toward squirrels 💎💎💎; I loved his love of roses and exceptional skills with them. I still have a rose bush in my backyard from his plentiful batch that he planted before he left the US to return home to Italy 💎💎💎. He also planted 100 tulips bulbs for me but unfortunately the squirrels dug and ate them all (I understand his distain toward the squirrels 💎💎). We'll miss him, but have so many wonderful memories that we'll always cherish until we see him again 💎💎. You all are in our prayers and hope you find peace and comfort in knowing how special Uncle Johnny was and how appreciative we are of you all taking care of him so he could live a longing happy life on earth 💎💎 We love you Uncle Johnny and we'll see you again . Tell Granny hi .

Le mie più sentite condoglianze a tutta la famiglia. Ricordando il pollice verde del vostro caro zio Giovanni, e la missione "salva rose" messa in atto con la cara Marisa Petrella, quando abbiamo trapiantato e distribuito, a chi sapeva curarle, le sue bellissime rose, soprattutto quelle che, se non ricordo male, abbiamo chiamato "nonna Emma". Rest in peace caro Zio Giovanni.
